

Thanatan Budsri

ABOUT ME

- My name is Thanatan Budsri, 21 years old. I have experience in developing websites, creating social media applications using Flutter, and building AI-powered systems like a resume screening tool for internship students. I am a quick learner, a team player, and a dedicated individual ready to contribute and grow with your organization.

EXPERIENCE

Resume Screening System for Internship Students Jan, 2025 – Present

- I am developing a resume screening system for internship students to solve the problem of selecting suitable candidates. Currently, HR handles applications through email, which creates a lot of work. This system is different from others because it focuses on soft skills, not just hard skills, making it unique

Application Social media Aug, 2024 – Oct, 2024

- I have developed an application project primarily using Flutter. The app is a social media platform similar to Instagram, where users can send videos, share photos, make posts, and have a timeline to show activities. For the database, I used MySQL, with PHP to handle the backend development.

Website-Foodcourt Sep, 2024– Nov, 2024

- I developed a food court website with Node.js, enabling table-side food ordering to replace cash exchanges.

Website-Ecommerce Jan, 2024– Apr, 2024

- I have developed a computer sales website using HTML, CSS, and JavaScript, and also used the Bootstrap framework to support the development of this project.
